TERRY RONALD WEST

Date of birth: August 15, 1936

Associate Professor of Geosciences and Civil Engineering, Purdue University, West Lafayette. IN 47907.

Specialty areas - Geotechnical aspects of geology; including conventional and hazardous waste landfills, subsurface exploration in alluvial, glacial and coastal areas; groundwater geology; environmental studies; rock mechanics; materials for construction; engineering properties of rocks; remote sensing studies of soil and rock; reclamation of coal strip mine areas.

Education

B.A.	Geology, Washington University (St. Louis, MO)	1959
B.S.	Geological Engineering, Washington University	1959
M.A.	Geology, Washington University	1962
MSCE	Civil Engineering, Purdue University	1964
Ph.D.	Engineering Geology, Purdue University	1966

Memberships in Professional Societies

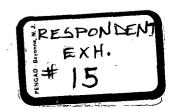

Geological Society of America Association of Engineering Geologists American Society for Civil Engineers American Society for Testing and Materials, C-9 & D-18 Subcommittees Sigma Xi

Experience

T.R. West has been active in subsurface investigation studies of soil and rock areas, conventional and hazardous waste landfill analysis, ground water geology, geology of open pit and underground mines, and geology related to construction. He has also been involved in the exploration for-and evaluation of- gravel and stone for construction purposes and in the monitoring of ground water quality for strip mines, industrial plants, and sanitary landfills.

Registration

Registered Professional Engineer, Missouri, E 10544.

CAUSE NO. B-1357

V.)

GARY DEVELOPMENT COMPANY, INC.,)

EMERGENCY ORDER OF THE COMMISSIONER

VIA CERTIFIED MAIL P 730 163 114

TO:

Mr. William M. Nanini, President Gary Development Company, Inc. 2727 West Club Drive Tucson, Arizona 87541

Respondent.

C.T. Corporation, Resident Agent Gary Development Company, Inc. 1 North Capitol Indianapolis, Indiana 46204

Follows is the Emergency Order of the Commissioner of the Department of Environmental Management issued against Gary Development Company, Inc. for violation of the Water Pollution Control Act. This Emergency Order is issued pursuant to IC 13-7 and IC 4-21.5-4 and is based on an investigation which revealed a threat to the environment and potential health condition. During this investigation, it was determined that Gary Development Company, Inc. was in violation of 327 IAC 5. This rule states, in part, that a point source discharge of pollutants to waters of the State without a valid NPDES Permit is prohibited. Such a discharge is also a violation of IC 13-1-3, and the Environmental Management Act (IC 13-7).

I. FINDINGS OF FACT

- 1. Complainant is the Commissioner of the Indiana Department of Environmental Management (also referred to as Commissioner).
- 2. Complainant has jurisdiction over the Respondent and the subject matter of this action.
- 3. Respondent, Gary Development Company, Inc. owns a sanitary landfill located in Gary, Indiana.

- 4. Complainant conducted an inspection of Respondent's facility on August 1, 1990. The inspection revealed that Respondent was discharging leachate water from their facility to receiving waters named the Grand Calumet River.
- 5. Respondent does not have an NPDES Permit that authorizes point source discharges from the above named facility.
- 6. Complainant alleges that as a result of untreated leachate flowing from Respondent's sanitary landfill, a threat to the aquatic environment of the Grand Calumet River and human health exists.

II. ORDER

WHEREFORE, it is now ORDERED that upon receipt of this Emergency Order, Respondent shall:

- 1. Respondent shall immediately cease the discharge of leachate into waters of the State.
- 2. Respondent shall apply for an NPDES Permit within sixty (60) days of the effective date of this Order.
 - 3. This Emergency Order is effective upon issuance, except that:
 - a. A party affected by this Emergency Order may request a hearing under IC 4-21.5-4-4 by submitting a written request to the Commissioner at the aforementioned address.
 - b. Upon a request by a party for a hearing, the agency shall, as quickly as practicable, set the matter for an evidentiary hearing and an administrative law judge shall determine whether this Emergency Order should be voided, terminated, modified, stayed, or continued.
 - c. This Emergency Order expires ninety (90) days from the date of issuance and is subject to renewal under IC 4-21.5-4-5.

Dated at Indianapolis, Indiana, this 16TH day of October.

THE BEARE

Commissioner

CERTIFICATE OF AUTHENTICATION OF PUBLIC RECORDS

I hereby certify and affirm that I have access to and custody of records held by the Commissioner of the Indiana Department of Environmental Management and that attached is a true and accurate copy of the following record filed with the Commissioner of the IDEM and contained in its files:

1. Agreed Order in the case of Commissioner of the Department of Environmental Management v. Gary Development Company, Inc., in Cause No. A-1294, approved and adopted by the Indiana Department of Environmental Management on October 11, 1990.

COMMISSIONER OF THE DEPARTMENT

OF ENVIRONMENTAL MANAGEMENT,

Complainant,

V.

Cause No. A-1294

GARY DEVELOPMENT COMPANY, INC.,

)

Respondent.

AGREED ORDER

The Commissioner of the Indiana Department of Environmental Management (IDEM) and the Respondent Gary Development Company, Inc., (GDC), desire and agree to settle and compromise the action and matters encompassed by the Notice of Violation issued by the Commissioner on December 8, 1989, without hearing of any issue of fact, and thus hereby agree to the following Findings of Fact and Order:

FINDINGS OF FACT

Now, therefore, upon the consent of the parties hereto, the following findings are made:

- 1. The Complainant is the Commissioner of the Department of Environmental Management of the State of Indiana also referred to as Commissioner.
- 2. The Respondent, Gary Land Development, Inc., owns and operates a landfill, located in Gary, Indiana.
- 3. The Department of Environmental Management has jurisdiction over both the subject matter and the parties to this action.
- 4. The original named Respondent, Larry Hagen, d.b.a., Gary Land Development, does not own or operate the landfill facility as Gary, Indiana and the Commissioner, by consent, substitute Gary Development Company, Inc., as the Respondent.

An Equal Opportunity Employer

- 5. After normal business hours on the afternoon of Saturday, May 13, 1989, a fire broke out at the Respondent GDC's landfill. A security guard at the landfill facility immediately reported the fire to the City of Gary Fire Department in whose jurisdiction the landfill is located. The Gary Fire Department Incident Report #05891323 states that the Department responded to a grass fire at the landfill on North Cline Avenue at 2:14 p.m. and used equipment for ten minutes to fight the fire.
- 6. Because the Gary Fire Department did not extinguish the fire, the Respondent GDC contacted and obtained the services of Clark Material Handling, Inc., of East Chicago, Indiana, to extinguish the fire, and also obtained the assistance of the City of East Chicago Fire Department to pump water on the fire on May 13, 1989. Clark Materials spent 36 man hours extinguishing the fire on May 13 and May 14, 1989.
- 7. The <u>Hammond Times</u> reported on May 15, 1989, that the fire was extinguished by 6:00 p.m. on Sunday, May 14, 1989. However, Mr. Richard Reynolds, an enforcement inspector with the IDEM's Air Pollution Control Division, reported seeing during the morning of Monday, May 15, 1989, smoldering material and some small flames around a hole wherein an earthmoving dozer had been stuck while being used to fight the fire. The Respondent GDC had to obtain the services of Patton Tractor Company on May 15 to remove the dozer before it could complete its efforts.
- 8. A Notice of Violation was served via Certified Mail, to:

Larry Hagen, d.b.a. Gary Land Development Cline and Gary Avenue P.O. 6056 Gary, Indiana 46400

GDC acknowledges that they received the Notice of Violation, although it was improperly addressed.

9. The Landfill which began on May 13, 1989, is an alleged violation of 326 IAC 4-1.

ORDER

Now, therefore, based upon the Findings of Fact and upon consent of the parties, it is hereby Ordered that:

- 1. Respondent shall comply with 326 IAC 4-1 and all other rules of the Indiana Air Pollution Control Board in the future.
- 2. Respondent shall not use combustible cover materials from the East Chicago shredder for covering solid waste. Within thirty (30) days of the effective date of this Order, Respondent shall provide the Department of Environmental Management with a fire fighting plan for control of any future fires at the landfill.
- 3. The Respondent shall pay a Civil Penalty in the amount of Six Thousand Dollars (\$6,000) to the Environmental Management Special Fund. Said Civil Penalty shall be due and payable thirty (30) days after Respondent receives notice that the Commissioner has approved this Agreed Order. Checks shall be made payable to the Environmental Management Special Fund and mailed to 105 South Meridian Street, P.O. Box 6015, Indianapolis, Indiana 46206, Attention: Mr. Jerry Higdon.

- 4. The provisions of this Agreed Order shall apply to the Complainant and the Respondent, their successors, assignees and to all persons, firms or corporations acting through or on behalf of either.
- 5. This Agreed Order shall have no force or effect until it is approved by the Commissioner. Full and timely compliance with the provisions of the Agreed Order shall constitute a final resolution of this action. Unless approved by the Commissioner, this Agreed Order shall not constitute

provisions of this Agreed Order and shall be bound by said Order when it is issued by the Commissioner of the Department of Environmental Management of

evidence. Respondent, by the duly authorized undersigned, hereby consents to the the State of Indiana. TECHNICAL RECOMMENDATION: DEVELOPMENT COMPANY, INC. Title: Vili has mer. Woodard R. Dear Mr. Steels:

Re: Disposal of Calcium Sulfate

This will confirm your phone conversation with Mr. Bruce Palin on March 8, 1977, concerning the above-referenced subject.

You are hereby granted approval to dispose of the calcium sulfate waste at Cary Land Development (SW 133). It is understood that this waste is generated at a rate of approximately 1 1/2 tens per day.

This approval is granted with the condition that the moisture content is only enough to prevent dust problems and that the waste be mixed with the general refuse.

If you have any questions, please contact Mr. Bruce Palin of the Solid Maste Management Section at AC 317/633-6400.

Very truly yours,

Holand P. Dove, Director

Division of Sanitary Engineering

STATE OF INDIANA)

) SS:
COUNTY OF LAKE)

CERTIFICATION AND ATTESTATION OF COPIES OF OFFICIAL RECORDS

- I, Carl Broman, being first duly sworn upon my oath, state:
- 1. I am the duly appointed Superintendent of the Environmental Control Department of LTV Steel Company's Indiana Harbor Works. In this capacity, I have legal custody of the records of said Department.
- 3. The original hazardous waste manifests each consisted of three copies, each bearing the same document number unique to that manifest. Copy 1 of each manifest (the generator's copy) is divided into two perforated parts, Part A and Part B. The document number is printed on both parts. For each shipment of hazardous waste reflected in the manifests, J & L filled out Part A in triplicate, indicating the names, addresses, telephone

numbers and EPA I.D. numbers of the generator, transporter and disposal facility as well as the quantity, EPA hazardous code, EPA waste type (hazardous waste number) and description of the A representative of J & L signed Part A and obtained the transporter's signature on Part A in triplicate, then retained Copy 1 of Part A for J & L's files. The transporter took the remaining manifest copies (Copy 1 of Part B and Copies 2 and 3 of Parts A and B) with the shipment to the disposal facility, Gary Development Company. Upon acceptance of the waste by the disposal facility, a representative of the disposal facility signed Part B of the manifest in triplicate. Copy 1 of Part B of the manifest was returned to J & L where it could be matched to Part A by means of the document number. Copies 2 and 3 of Parts A and B were retained by the transporter and disposal facility. Thus, the generator, transporter and disposal facility each could possess a copy of the entire manifest bearing the signatures of all three parties. The attached documents are copies GUEEDT AS NOTED CD of Part A and B of Copy 1 of each manifest retained by J & L as generator of the waste, matched according to document number.

IN WITNESS WHEREOF, I have hereunto set my hand at

EST CHEEFO, Indiana, this ______ day of November, 1987.

Carl Broman

OTARY Subscribed and sworn to before me, a Notory Public in and for said County and State, this $20^{\frac{74}{2}}$ day of November, 1987.

DON P. JOHNSON
NOTARY PUBLIC STATE OF INDIANA
LAKE COUNTY

J.S.S. LEAD REFINERY, INC. SUBSIDIARY OF SHARON STEEL CORPORATION . AN INVENTED COMPANY

5300 Kennedy Avenue, East Chicago, Indiana 46312 Telephones (219) 397-1012 (312) 731-0500

Dec. 7, 1990

Mr. Jonathan Cooper United States Environmental Protection Agency 5 HR - 12 230 So. Dearborn St. Chicago, IL 60604

Dear Mr. Cooper;

I regret to inform you that the originals of Hazardous Waste Tracking Forms in the possesion of U.S.S. Lead Refinery, Inc., copies of which have been previously supplied to U.S.E.P.A., in response to an Information Request authorized under Sec. 3007 of RCRA, dated 8/8/86 concerning material sent to Gary Development for disposal are assumed to have been consumed in a fire which destroyed the main office and laboratory of our company on Sunday, May 13, 1990.

If I can be of further assistance in this matter please do not hesitate to contact me.

Very Truly Yours,

R. C. Liscum Chief Accountant

cc: R Steinwurtzel Esq. James Newcomb
